About Training

About Training

This comprehensive hands-on course is a must for new administrators. Administration Essentials for New Admins is the core training that ensures your success with business. For maximum benefit, we recommend administrators take this course before starting a Salesforce deployment or when taking over an existing deployment.

What You'll Learn

- Customize your application, including page layouts, fields, tabs, and business processes.
- Create a secure Salesforce environment.
- Maintain and import clean data.
- Create high-value reports and dashboards.
- Setup workflow automation.

Who Should Attend

- Administration Essentials for New Admins is designed for:
- New system administrators responsible for the setup, configuration, and maintenance of their organizations
- Other groups that benefit from this course include power users, sales operations, and IT managers.
