

# Oracle Solaris 11 System Administration

## Training Details

Training Time	:	5 Days
Capacity	:	16
Prerequisites	:	There are no prerequisites for this course.

## About Training

### About Training

The Oracle Solaris 11 System Administration training covers the full range of introductory system administration tasks on Oracle Solaris 11.3 OS. The topics covered range from installing the operating system on a single system, to monitoring and basic troubleshooting. The Oracle Solaris 11 System Administration course is designed to provide new system administrators, as well as enterprise system administrators who are new to the Oracle Solaris 11 Operating System, with the skills they need to perform their job tasks successfully and efficiently. The course provides an intensive hands-on experience for key system administration tasks with the goal of making the system administrator job-ready.

### What You'll Learn

- Administer the Oracle Solaris 11 Host on an Existing Network
- Administer Oracle Solaris Zones
- Control Access to Systems and Files
- Install Oracle Solaris 11 Operating System
- Administer User Accounts
